

Service Partner Certificate

This is to certify that

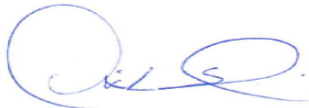

Trinet Corporation

1-13 Samoncho, Shinjuku-ku, Tokyo, 160-0017

is a certified service partner to deliver and maintain BC Platforms' solutions in Japan.

Certified Service Partners are dedicated to fostering long-term collaboration in the procurement and delivery of BC Platforms' products and services within the region. Each Certified Partner has formally endorsed an Information Security Agreement, completed BC Platforms' Training Program, demonstrated proficiency in the Company's systems and applications, including their infrastructure prerequisites, and possesses qualifications encompassing both technical expertise and specialized market and industry consulting.

Anita Eliasson

Director, Quality and Compliance

Issued by: BC Platforms AG

BC Platforms is a global leader in building data networks for the life sciences industry and providing versatile technology platforms for research and precision medicine, accelerating the translation of innovations into clinical practice.
